To Whom It May Concern:

The Wantagh Animal Hospital has been referring clients to Love 'n' Care since 2000. Eddie McMullen provides a great alternative to in-hospital boarding as well as other services. Many clients who have used his services have called us back with thanks for recommending him.

Besides providing in-home pet sitting, he has numerous other services. On request, they will transport pets to the animal hospital for emergency services or for clients who are unable to drive themselves.

We highly recommend Love 'n' Care.

Sincerely,

Mitchell Pudalov DVM
